

CAPEL PARISH COUNCIL PUBLICATION SCHEME

The Transparency Code was developed in response to demand that new technologies and publication of data should be transparent and accountable, the expectation that public data should become integral to local authority engagement with local people so that it drives accountability to them (openness) and to ensure that public data is available as soon as possible following production, even if it is not accompanied with detailed analysis (timely).

Regulation 15 (2) of the Accounts and Audit Regulations 2015 require **smaller authorities** to publish a set list of documents in order to comply with the "**Transparency Code for smaller authorities**"; this ensures local electors and rate payers are able to easily access relevant information about the **authorities'** accounts and governance.

²Freedom of Information Act

This policy is based on the model publication scheme that has been prepared and approved by the Information Commissioner. It may be adopted without modification by any public authority without further approval and will be valid until further notice. I have adapted it for Capel Parish Council. The council uses the policy to ensure it is compliant with the Local Government's Transparency Code 2015 and the Freedom of Information Act 2000 (as amended by the Protection of Freedoms Act 2012). The purpose of the Code is to ensure that local people can see and access data covering:

"how money is spent (all spending transactions over £500, all Government Procurement Card spending and contracts over £5,000.

Use of assets

Decision Making

Issues important to local people"
